**Source:** 1995-96 vocational program completers and leavers from the student data base were matched by college, program, CIP, and student ID to the 1995-96 FETPIP follow-up file. Leavers are defined as students who were enrolled in 1994-95, but did not complete the program in which they were enrolled during 1995-96, nor return to the institution in 1996-97. The number in the pool is defined as the number of records with usable match data. It excludes records with exceptionalities without positive outcome data, non-resident aliens, indeterminate and unusable data, and those reported as incarcerated. Number placed is defined as the number of records deemed training-related by virtue of related work, continuing education or found in the military.
